**Course Description:** We can easily understand the best treatment for complications is to avoid them in the first place. This course is designed to give a clear understanding of :

---

- ◆ Using Digital Design through CAD/CAM Dentistry to Create Clinical Solutions
- ◆ Provide Clinical Reference for Delivery of Screw Retained Crowns and Bridges
- ◆ Clarify When the Angulated Screw Channel is the Ideal Solution to Avoid Cemented Restorations
- ◆ Understand the Clinical Simplicity of Delivering Screw-Mentable Restorations
- ◆ Underscore When Cemented Restorations Remain Required Over Screw Retained Crowns
- ◆ Custom Abutment versus Stock Abutment and Abutment Material Selection
- ◆ Clarification of Acrylic, Monolithic Zirconia, Ceramic and Mixed Solutions for Implant Bridges
- ◆ Splinting Implants to Implants, Implants to Teeth and Mixing Cement and Screws in One Bridge

This interactive discussion of avoiding complications is geared to restorative dentists & their surgical partner.
