## INTRODUCTION TO REMOVEABLE IMPLANT DENTURES

**Presented by**  
John C. Luangrath

About Our Speaker... John C. Luangrath graduated from UCLA as a pre dental student and received a Certificate of Achievement from the Diablo Valley College Dental Laboratory Technology program in 2006. John was hired on at Arrowhead Dental Lab in Utah where he helped grow the implant department, and established many implant protocols still used today. He was one of the first to learn about and provide custom milled solutions, as well as guided surgical options, to many of the clinicians who used Arrowhead. While at Arrowhead, John earned his Masters in Public Administration. In 2015, John was hired at Instradent, USA as the Product Manager for Megadentika. His knowledge and experience in the dental lab field has helped him direct, grow, and promote Megadentika to labs and clinicians in the US and worldwide. As the product expert, John has done many hands-on demonstrations and

presentations to labs and clinicians, and is passionate about educating clinicians and technicians about implant dentistry.

**Date:** WEDNESDAY, FEBRUARY 19, 2020 **Time:** 6:00 pm-8:00 pm

**Location:** TECHNIC DENTAL LAB 11555 W 183<sup>rd</sup> PL. Orland Park, IL

**Tuition:** \$28 CE Credits 2 Dinner will also be provided.

**Summary** This is a hands-on introductory course to implant retained dentures. We will review the principles behind different kinds of implant abutments and housing systems related to removable implant dentures. We will use the Megadentika Housing system, a "Locator-like" housing and abutment system that utilizes PEEK liners instead of soft nylon liners, as our hands-on material. We will also discuss the pros and cons of each system. The goal of this course is to show the audience the principles of implant retained removable dentures and the many options out there that are best suited for their patients.

**Learning Objectives** • Learn what implant retained removable dentures are • Provide an overview of the different options for removable dentures and full-arch restorations • Principles of choosing the proper system • Evaluate and repair removable dentures • How to process "snap on" style removable dentures

Neodent is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship/Membership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 7/1/2016 to 6/30/2020. Provider ID #356988
