Happy New Year!!!

First and foremost, we hope you all enjoyed a wonderful holiday with family and friends! It's so nice to sit back and relax for a moment once the rush subsides. Nice having the opportunity to enjoy your surroundings and reflect upon all we accomplished in 2024. It was quite a busy year at Technic, our 45th to be exact, and we couldn't have done it without you. Many thanks to our amazing doctors and staff! We appreciate all you do year-round.

Technic Hits Tokyo Steakhouse

We had a blast at our holiday party. Tokyo Steakhouse was the perfect atmosphere for this group to let loose and laugh away the evening. The food and culinary artistry always brings a smile to my face, but this night felt even more cheerful being surrounded by such a great group of friends/co-workers. Visit our Facebook page for all the photos from this wonderful evening. Go ahead, have a laugh on us!

LMT LAB DAY Chicago 2025

Feb 20th - 22nd

We know how much you love delving into the future of dental technology. There's just no better way to be fully immersed in the latest and greatest than attending the 40th annual LMT LAB DAYS in Chicago. I'll be walking the floors gathering as much information as possible, but I'd love to run into a few of you to see where your interests lie. Learning together is key. I hope to see you there!

Get Excited for Q1-2025!

Technic is excited to announce that we've been working with numerous intra-oral scanner companies & reps to set-up demo days at your practice. That's right, the tech is now coming to you. We've worked most closely with iTero and Trios reps, along with a few other brands to provide opportunities for you and your staff to learn how to navigate the transition to digital dentistry. While Technic has been thriving as a digital lab for years now, we've noticed that more and more practice owners are reaching out to us, looking to start the conversation about going digital. Just as the reps we work with are sure to let your practice know which labs are ready to handle digital work, we keep them informed as to which practices are considering making the leap to digital. Honestly, the reps have been amazing to work with and provide an experience second to none. Is your practice considering the transition to digital? We'd love to help you get all the info you need without a price tag. Please call or email Technic to get the discussion started, you've got nothing to lose. Contact information listed below. That's a wrap for now. Let's make it a great 2025!

As Always, Thanks for Choosing Technic Dental Lab!
